CRITERIA FOR DETERMINING THE ORDER OF CANDIDATES ON THE RANKING LIST:

The order of candidates for enrolment in the first year of Integrated Studies of Dental Medicine is determined on the basis of the secondary education grade point average and the results achieved in the entrance exam. A candidate can score a maximum of 100 points in total, based both on the secondary school grade point average and the results achieved in the entrance exam.

The secondary education grade point average refers to the sum of all grade averages in the first, second, third, and fourth grades, multiplied by two.
